

## EIZO Recognized as a CDP Supplier Engagement Leader for Climate Change Response

**Hakusan, Japan, March 28, 2023** – EIZO Corporation (TSE: 6737) announced that the company was recognized as a Supplier Engagement Leader – the highest rating in the CDP's Supplier Engagement Rating (SER) evaluation.

The CDP's annual SER evaluates corporate supply chain engagement on climate issues based on responses to four key areas of the CDP Climate Change Questionnaire related to governance, targets, ambition management, and supplier engagement. In addition, overall performance is factored into the rating as an overall assessment of a company's climate change performance.

In fiscal year 2022, out of approximately 8,000 companies that were evaluated, approximately 653 companies representing the top 8% were selected as Supplier Engagement Leaders, including EIZO.

EIZO remains committed to addressing key issues related to sustainability and mitigating environmental impact through daily business operations and supply chain management. With the cooperation of its suppliers, EIZO is engaged in various climate change mitigation activities as one of its materiality topics. Being selected as a Supplier Engagement Leader is recognition of EIZO's ongoing efforts related to key issues throughout the supply chain.

### About CDP

CDP is a not-for-profit charity that runs the environmental disclosure and assessment system for companies, cities, states, and regions to manage their environmental impacts and is widely recognized as the global standard for this topic. It was established in the UK in 2000 and has representation spanning 50 countries. In 2022, over 680 investors and 280 major buyers with a combined purchasing power have requested disclosure of data on environmental impacts, risks, and opportunities through CDP's platform, with a record number of approximately 18,700 companies responding to the questionnaire worldwide.
