

FlexScan® EV2485

24.1" Color LCD monitor

The New Standard for a Better Working Experience

Streamlined Connection with USB Type-C

The monitor is equipped with a USB Type-C® connection that allows users to display video, playback audio, transmit USB signals, and supply power to connected devices. This convenient multi-purpose connectivity makes it faster and easier to connect a laptop when moving between workstations or when working away from the office.

70 Watt Power Delivery

The 70 watt power delivery via USB Type-C reliably charges small desktop PCs and laptops. This eliminates the need for a laptop's bulky power supply unit, freeing up space in your bag and on the desk.

Connecting Peripherals Directly

While modern laptops are becoming thinner and more portable, they often have limited connectivity options for peripherals. Connecting to the monitor via USB Type-C gives access to a hub with four USB Type-A ports for easily connecting an external keyboard, mouse, or web camera.

FlexScan® EV2485

Improve Work Efficiency

When used with a 14-inch laptop, for example, the 24.1-inch monitor effectively triples the screen space available to you. This improves efficiency by reducing the need to scroll or switch windows frequently.

In addition, the WUXGA (1920 x 1200 pixels) resolution is vertically longer than Full HD (1920 x 1080 pixels). This allows you to display 15% more data in spreadsheets, or more comfortably view documents in full.

Comfortably Fits in Modest Workspaces

The monitor features a space-saving design with a width of 531 mm and a depth of 230 mm. With its small footprint, it fits neatly into even the most modest workspaces or home offices to save more desk space. In addition, the stand has a wide adjustable range of 182.2 mm, allowing you to comfortably place a laptop under the monitor for a quick and compact multi-screen configuration.

Versatile Stand for Optimal Positioning

The stand has a wide adjustment range, featuring height adjustment, tilt and swivel. This allows you to set the monitor to the perfect position, whether sitting or standing at your desk.

Say Goodbye to Tired Eyes

The monitor is equipped with functions to help users concentrate on work by keeping their eyes comfortable throughout the day.

Care for the Environment and You

The monitor's energy-saving and power reduction functions make it both easy on the eyes and environmentally friendly. EIZO is working towards creating environmentally friendly products through a wide range of corporate efforts.

Specifications

Model Variations	with stand black / white	EV2485-BK / EV2485-WT
	without stand black / white	EV2485-FBK / EV2485-FWT
Panel	Type / Backlight	IPS / LED
	Size	24.1" (61.1 cm)
	Native Resolution	1920 x 1200 (16:10 aspect ratio)
	Viewable Image Size (H x V)	518.4 x 324 mm
	Pixel Pitch / Pixel Density	0.270 x 0.270 mm / 94 ppi
	Display Colors	16.77 million
	Viewing Angles (H / V, typical)	178° / 178°
	Brightness / Contrast Ratio (typical)	350 cd/m ² / 1000:1
Video Signals	Response Time (typical)	5 ms (gray-to-gray)
	Input Terminals	USB Type-C (DisplayPort Alt Mode, HDCP 1.3), DisplayPort (HDCP 1.3), HDMI (HDCP 1.4)
USB	Digital Scanning Frequency (H / V)	USB Type-C: 31 - 76 kHz / 59 - 61 Hz DisplayPort: 31 - 76 kHz / 59 - 61 Hz HDMI: 31 - 76 kHz / 49 - 51 Hz, 59 - 61 Hz
	Upstream	USB 3.1 Gen 1: Type-C (DisplayPort Alt Mode, Power Delivery Source 70 W max.)
Audio	Downstream	USB 3.1 Gen 1: Type-A x 4
	Speakers	1.0 W + 1.0 W
Power	Input Terminals	USB Type-C, DisplayPort, HDMI
	Output Terminals	Headphones (Stereo mini jack)
Features & Functions	Power Requirements	AC 100 - 240 V, 50 / 60 Hz
	Power Consumption Typical / Maximum / Power Save Mode	12 W / 146 W / 0.5 W or less
	Preset Modes	User1, User2, sRGB, Paper, Movie, DICOM
Physical Specifications	Auto EcoView	Yes
	OSD Languages	English, German, French, Italian, Japanese, Simplified Chinese, Spanish, Swedish, Traditional Chinese

Dedicated Software	Monitor Control Utility	Screen InStyle Supported
Supplied Accessories (May vary by country. Please contact EIZO for details.)	Signal Cables	USB Type-C (2 m)
	Others	AC power cord (2 m), setup guide
Warranty		Five Years*

*Usage time is limited to 30,000 hours. Free from bright sub-pixels for 6 months from the date of purchase. With current LCD technology, a panel may contain a limited number of missing or flickering pixels. If the monitor is left on continuously over a long period of time, dark smudges or burn-in may appear. To maximize the life of the monitor, we recommend the monitor be turned off periodically.
